

Pensselipesu (Tool Cleaner)

Description	Solvent-free cleaning agent for cleaning painting equipment.
Product features	For cleaning painting tools immediately after painting. Used undiluted to remove oil paints, alkyd paints or lacquers, as well as waterborne dispersion paints from tools. Pensselipesu Tool Cleaner will easily remove paint from e.g. brushes. It also softens the bristles. Cleans also slightly hardened brushes. Will not damage wood, glass, rubber or plastic.
Recommended uses	Painting equipment such as different kinds of brushes, rollers, etc.

TECHNICAL DATA

Can sizes	1 l, 5 l
Density	1.0 kg/l, ISO 2811
Storage	Protect from frost.

APPLICATION DETAILS

Cleaning	<p>Clean painting equipment right after use. Remove surplus paint from the brush e.g. by pressing the bristles against the can edge. Sink the brush into undiluted Pensselipesu and let it stand for approx. 10 minutes. Remove excess mixture of paint and Pensselipesu from the brush and rinse it carefully with water. If necessary, soap can be used as an aid. Also slightly hardened brushes can be cleaned with Pensselipesu. Place the brush into a can which can be closed, and soak the brush for approx. 24 hours. Repeat this procedure, if necessary.</p> <p>It is possible to re-use Pensselipesu; just let the solution stand in a closed can until the paint sediment has settled down on the bottom of the can. Pour the clean Pensselipesu liquid carefully into another can.</p> <p>Painting equipment will remain in good shape, if they are stored in Pensselipesu solution, in a well closed can.</p>
