Water-borne products

Lacquers / Interior

Akvilac CE 25

A water-borne, one-component acrylate lacquer.

- Excellent chemical resistance
- All-round lacquer for sealing and top lacquering
- Good levelling properties

RECOMMENDED USES

Chairs, furniture, doors, mouldings, plywood elements and other wooden surfaces

APPLICATION

Airless, air-assisted airless and conventional spraying

COLORS

Clear lacquer. Shades from the Akvi Color AT color card and several colors by request. Akvi Tone tinting

Akvilac FD 25

A water-borne, one-component acrylate lacquer.

- M1 classified
- Creates a clear and smooth surface
- Excellent blocking properties and chemical resistance

RECOMMENDED USES

Panels, doors, furniture and other wooden surfaces

APPLICATION

Airless, air-assisted airless and conventional spraying

COLORS

Shades from the Akvi Color AT color cards and several colors by request, Akvi Tone tinting system

Akvilac FD 70

A water-borne, one-component high-gloss acrylate top lacquer.

- High-gloss top lacquer
- Creates a clear and smooth surface
- Excellent blocking properties and chemical resistance
- M1 classified

RECOMMENDED USES

A transparent lacquer for panels, doors, furniture and other wooden surfaces

APPLICATION

Air-assisted airless and conventional spraying

COLORS

Shades from the Akvi Color AT color cards and several Colors by request, Akvi Tone tinting

Akvilac FD-JW 5

White tinted full-matt lacquer.

- White tinted full-matt lacquer
- Special product for the joinery industry
- Good stacking properties

RECOMMENDED USES
For moldings, panels, doors and other wooden surfaces
APPLICATION
Air-assisted and conventional spraying
COLORS
Transparent whitish, Akvi Tone tinting system

Akvilac FD-J 10

A water-borne, one-component acrylate lacquer.

- Special product for the joinery industry
- M1 classified
- Excellent blocking properties and chemical resistance

RECOMMENDED USES
Moldings, panels, doors and other wooden surfaces
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
Shades from the Akvi Color AT color cards and several Colors by request, Akvi Tone tinting system

Akvilac FD-J 25

A water-borne, one-component acrylate lacquer.

- Special product for the joinery industry
- M1 classified
- Excellent blocking properties and chemical resistance

RECOMMENDED USES
Joinery industry such as moldings, panels, doors and other wooden surfaces
APPLICATION
Air-assisted airless and conventional spraying
COLORS
Shades from the Akvi Color AT color cards and several Colors by request, Akvi Tone tinting system

Akvilac TIX 25

A water-borne, one component acrylate lacquer.

- Easy to apply
- Fast-drying

RECOMMENDED USES
Chairs, furniture, doors, moldings and other wooden surfaces
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
Shades from the Akvi Color AT color cards and several colors by request, Akvi Tone tinting system

Akvilac FD-TIX 25

A water-borne, one-component acrylate lacquer.

- Easy to apply
- Fast-drying
- Excellent sanding properties

RECOMMENDED USES
Furniture, panels, doors and other wooden surfaces
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
Shades from the Akvi Color AT color cards and several colors by request, Akvi Tone tinting system

Water-borne products

Laquers / Exterior

Pinjalac HB 30

A water-borne acrylate lacquer with good exterior durability.

- High-build, fast-drying exterior lacquer
- Transparent and clear
- Easy to spray

RECOMMENDED USES

Window frames, front doors and other wooden surfaces outdoors

APPLICATION

Airless and air-assisted airless spraying

COLORS

Akvi Tone and Avatint tinting systems

Water-borne products

Primers and paints / Interior

Akvi Primer

A water-borne all-around acrylate primer.

- Excellent sanding properties
- Fast-drying primer

RECOMMENDED USES

Furniture, doors, moldings and other wooden surfaces in interior premises

APPLICATION

Airless, air-assisted airless and conventional spraying

COLORS

White

Akvi Primer MP

A water-borne acrylate primer with excellent hiding power.

- Fast-drying primer for line applications
- Easy to sand
- Less fiber swelling

RECOMMENDED USES

MDF and wooden surfaces, such as doors, furniture, panels and moldings.

APPLICATION

Airless, air-assisted airless and conventional spraying

COLORS

White

Akvi Primer Pro

A totally white primer.

- Fast-drying primer with good sanding properties
- Suitable for several wooden surfaces
- Can be overcoated with both water- and solvent-borne products

RECOMMENDED USES

MDF and wooden surfaces like doors, furniture, panels, moldings etc. in interior premises

APPLICATION

Airless, air-assisted airless and conventional spraying

COLORS

White

Akvi Primer Tix

A water-borne acrylate primer.

- Thixotropic primer
- Excellent sanding properties
- Good filling properties

RECOMMENDED USES
Furniture, doors, moldings and other wooden surfaces in interior premises
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
White

Akvi Isolator

A water-borne acrylate primer for retarding knot bleeding.

- Isolating primer
- Outstanding filling properties
-

RECOMMENDED USES
Wooden panels, moldings, doors or other wooden surfaces for interior use.
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
White

Akvi Top DS 25

A one-component water-borne acrylate topcoat for colorful even surface.

- Easy to apply
- Tintable to thousands of colors
- For overcoating Fontefire WF fire retardant paint

RECOMMENDED USES
Panels, doors, moldings and other wooden/fiber board surfaces
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
RAL, NCS, SSG, BS and SYMPHONY color cards, Avatint tinting system

Water-borne products

Primers and paints / Exterior

Pinja Flex Primer

A water-borne acrylate primer.

- Flexible acrylate primer
- Easy to sand

RECOMMENDED USES
Wooden window frames and exterior doors
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
White

Pinja Opti Primer

A water-borne alkyd primer.

- Thinning ratio even 1:1
- Good coverage even when thinned
- Available in thousands of colors

RECOMMENDED USES
Priming of exterior boards and claddings
APPLICATION
Airless and air-assisted airless spraying, conventional spraying as well as vacuum application
COLORS
White in 1000l container, other shades from the Tikkurila House Paint color card, Avatint tinting system

Pinja Pro Primer

An all-around water-borne primer for fine-sawn timber.

- Economical primer for claddings
- Flexible alkyd primer
- Can be used prior to the application of water-borne or alkyd topcoats

RECOMMENDED USES
Priming of boards and panels for exterior cladding
APPLICATION
Conventional, airless and air-assisted airless spraying, brushing and vacuum machine painting
COLORS
White 0301 in 1000l container, other shades from the Tikkurila House Paint color card, Avatint tinting system

Pinja Protect G

A water-borne all-round alkyd primer to ensure high quality result.

- Ensure the most durable paint system by using Alcro and Beckers topcoats
- Swan and CMP approved
- Developed alongside Alcro and Beckers topcoats

RECOMMENDED USES
Exterior boards and claddings
APPLICATION
Airless spraying, air-assisted spraying and brush machine
COLORS
Tonad Vit

Pinja Protect M 20

A water-borne acrylic intermediate paint for preliminary protection for wood up to two years before topcoating.

- For midcoating prior to Alcro and Beckers high-quality exterior paints
- Contains film preservatives
- Fast-drying

RECOMMENDED USES
exterior wooden panels and claddings
APPLICATION
airless and air-assisted airless spraying as well as brushing
COLORS
White NCS S 0502-Y, red and grey NCS S 2500-N

Pinja Protect GM

A water-borne all-round alkyd primer to ensure high quality result.

- For priming and midcoating prior to Alcro and Beckers high-quality exterior paints
- Swan and CMP approved
- Available in thousands of colors

RECOMMENDED USES
Exterior boards and claddings
APPLICATION
Airless spraying, air-assisted spraying and brush machine
COLORS
NCS S 0502-Y and red, Avatint tinting

Pinja Flex Combi 25

A one-component water-borne polyacrylate paint with excellent adhesion properties.

- Very good weathering resistance
- One product for priming and topcoating
- Available in thousands of colors

RECOMMENDED USES
Wooden window frames and front doors
APPLICATION
Airless and air-assisted airless spraying
COLORS
The shades on the Wooden Facades color card for exterior use, Avatint tinting system

Pinja Flex Combi 35

A one-component water-borne polyacrylate paint with excellent adhesion properties.

- Very good weathering resistance
- One product for priming and topcoating

RECOMMENDED USES
Wooden window frames and front doors
APPLICATION
Airless and air-assisted airless spraying
COLORS
The shades on the Wooden Facades color card for exterior use, RAL and NCS color cards, Avatint tinting system

Pinja Combi AW 20

A one-component water-borne polyacrylate paint with good adhesion properties.

- Cost-efficient painting system
- High sagging value

RECOMMENDED USES
interior wooden parts of aluminium covered window frames and interior doors
APPLICATION
Application: airless and air-assisted airless spraying
COLORS
NCS S 0502-Y

Pinja Top

A water-borne acrylate semi opaque exterior paint.

- Flexible film with superior weather resistance
- Semi-opaque paint

RECOMMENDED USES
Exterior wooden panels and claddings
APPLICATION
Airless, air-assisted airless, and conventional spraying
COLORS
The shades of Tikkurila color card for Wooden Facades, Avatint tinting system

Pinja Pro

A water-borne acrylate exterior paint.

- Excellent protection against weathering
- Excellent hiding power
- Zinc oxide technology for long-lasting protection

RECOMMENDED USES
Exterior wooden panels and claddings
APPLICATION
Airless, air-assisted airless and conventional spraying
COLORS
The shades of the House paint color card, Avatint tinting system

Ultra Pro

A water-borne one-component, polyacrylate exterior topcoat with optimized hiding properties.

- Extremely low water absorption, standard EN 927
- Short throughput time
- Excellent protection against weathering

Ultra Pro 30

A water-borne one-component, polyacrylate exterior topcoat with optimal price-quality ratio.

- Excellent protection against weathering, standard EN 927
- Extremely low water absorption, standard EN 927
- Dries even without oven

RECOMMENDED USES
Exterior wooden panels and claddings etc.
APPLICATION
Spraying, brushing machine or vacuum painting
COLORS
The shades of the Wooden Facades color card for exterior use, Avatint tinting system

RECOMMENDED USES
Exterior wooden panels and claddings etc.
APPLICATION
Spraying, brushing machine or vacuum painting
COLORS
The shades of the Wooden Facades color card for exterior use, Avatint tinting system

Ultra Pro Plus 30

A water-borne one-component, polyacrylate exterior topcoat with optimal price-quality ratio.

- Outstanding protection against weathering, standard EN 927
- Extremely low water absorption, standard EN 927
- Can be used in Nordic Swan Ecolabelled buildings

RECOMMENDED USES
Exterior wooden panels and claddings etc.
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
The shades on the Wooden Facades color card for exterior use, RAL and NCS color cards, Avatint tinting system

Ultra Pro H10

A water-borne one-component, polyacrylate exterior topcoat.

- Short throughput time
- Extremely low water absorption, standard EN 927

RECOMMENDED USES
Exterior wooden panels and claddings etc.
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
The shades on the Wooden Facades color card for exterior use, Avatint tinting system

Water-borne products

Stains / Interior

Akvi Color AT-S

A water-borne stain.

- Contains light resistant pigments
- Good wetting properties
- Stain color emphasizes the structure of the wood

RECOMMENDED USES
Staining of interior wooden furniture, panels, doors etc.
APPLICATION
Conventional spray and dipping
COLORS
The shades from the Akvi Color AT color cards and several colors by request, Akvi Tone tinting system.

Water-borne products

Stains / Exterior

Pinja Color Oil

A water-borne tintable semi-transparent wood oil.

- Fast-drying tintable oil
- Delays water penetration into wood

RECOMMENDED USES
Exterior wooden surfaces such as decking, terraces and garden furniture
APPLICATION
Airless spraying and air-assisted airless spraying
COLORS
Clear and all the shades on the Valtti color card, Avatint tinting system

Pinja Indeep

A water-borne wood preservative for priming.

- Protection against mold, fungi and blue stain
- Registered wood preservative

RECOMMENDED USES
Exterior wooden surfaces
APPLICATION
Airless and air-assisted airless spraying as well as conventional spraying
COLORS
Bluish

Pinja W-Oil

A water-borne tintable semi-transparent wood stain.

- Fast-drying tintable oil
- Delays water penetration into wood

RECOMMENDED USES
Exterior panels, boards and log cabins in humid premises outdoors
APPLICATION
Spraying, dipping, flow coating and vacuum
COLORS
Clear and the shades of Color for Wood color card, Akvi Tone tinting system

Pinja Wood Stain

A water-borne priming oil/semi-transparent wood stain for exterior wooden surfaces providing translucent colorful protection for wood.

- Fast-drying stain for wood
- Protects the wood surface
- Both transparent and semi-transparent colors

RECOMMENDED USES

Wooden window frames, doors, claddings, panels and other wood surfaces

APPLICATION

Spraying, dipping, flow coating and vacuum

COLORS

Clear and the shades of Color for Wood color card, Akvi Tone tinting system

Pinja Wood Stain VM

A fast-drying water-borne wood stain for wooden surfaces.

- Fast-drying stain for wood
- Protects the wood surface
- Both transparent and semi-transparent colors

RECOMMENDED USES

Wooden window frames, doors, claddings, panels and other wood surface.

APPLICATION

Vacuum application

COLORS

Clear, Akvi Tone tinting according to the Translucent Wood Finishes Color Card.

Pinja Color Plus

A water-borne tintable semi-transparent wood stain.

- Deep and intense Super Colors
- Protects wood effectively
- Exceptionally high UV and weather resistance

RECOMMENDED USES

Timber claddings, window frames, doors, fencing, planed and sawn wood surfaces, impregnated and thermally treated wood surfaces as well as laminated log

APPLICATION

Airless spraying and air-assisted airless spraying

COLORS

All the shades from the Super Color and Valtti color cards, Avatint tinting system

Water-borne products

Waxes / Interior

Akviwax Satin

A natural wax protection for interior wooden surfaces in humid premises.

- Good humidity and dirt resistance
- Contains natural wax
- M1 classified

RECOMMENDED USES
Benches, panel walls and ceilings as well as doors in humid premises e.g. sauna.
APPLICATION
Spraying, dipping and vacuum
COLORS
Clear, black. Also the shades from Akvi Color AT stain color card and colors for Wood color card, Akvi Tone tinting system.

Akviwax White

A water-borne wax for interior wooden surfaces.

- Special product for sawn panels

RECOMMENDED USES
Interior wooden panels and frames
APPLICATION
Conventional, airless and air-assisted airless spray and roller coating
COLORS
White

Water-borne products

UV-curing products / Interior

Luminol 25

A UV-curing, tintable water-borne urethane polyester paint.

- Available in thousands of durable colors
- Excellent stacking properties
- Scratch resistant

RECOMMENDED USES
Furniture, doors of kitchen fittings and other wooden surfaces indoors
APPLICATION
Airless, air-assisted airless spraying and conventional spraying
COLORS
Avatint tinting system

Luminol 25 N

A water-borne urethane polyester paint to be cured by UV-light.

- Good stacking properties
- Excellent abrasion and chemical resistance

RECOMMENDED USES
Furniture, doors of kitchen fittings and other wooden surfaces indoors
APPLICATION
Conventional, airless and air-assisted airless spraying
COLORS
White, NCS-S-0502-Y other colors by request

Luminol Clear 25

A water-borne UV-curing urethane lacquer.

- Excellent stacking properties
- Scratch resistant
- Very transparent clear lacquer

RECOMMENDED USES
Furniture, doors of kitchen fittings, interior doors and other wooden surfaces
APPLICATION
Conventional, airless and air-assisted airless spraying
COLORS
Clear

Water-borne products

Putties / Interior

Colowood

A water-borne putty for interior wooden surfaces.

- 10 wood colors
- Excellent filling properties

RECOMMENDED USES
Interior wooden surfaces such as furniture, doors, panel, frames etc
APPLICATION
Spatula
COLORS
Birch, birch knot, pine, pine knot, oak, oak knot, beech, white, mahogany and black

Putty Pine HB

A water-borne filler for wooden surfaces.

- Excellent filling properties
- Easy to use viscosity

RECOMMENDED USES
Interior wooden surfaces such as fiber boards, solid wood, plywood or veneer etc
APPLICATION
Spatula
COLORS
Pine

Putty Pine

A water-borne high viscous filler.

- Excellent filling properties
- High viscosity, easy to apply for large areas

RECOMMENDED USES
Interior wooden surfaces such as fiber boards, solid wood, plywood or veneer etc
APPLICATION
Spatula
COLORS
Pine

Colofill

A two-component solvent-free epoxy putty.

- Brilliant adhesion to different surfaces
- Minimal shrinkage on thick layers as well

RECOMMENDED USES
Patching of holes, cracks and seams in wood and plywood surfaces.
APPLICATION
Rubber or steel spatula
COLORS
Wood

Acid-catalyzed products

Lacquers / Interior

Merit 20

A two-component acid-catalyzed lacquer.

- Superior filling properties
- Silky semi-matt appearance
- Enhances the appearance of stained wood

RECOMMENDED USES
Furniture, doors and other similar wooden surfaces
APPLICATION
Conventional, airless, air-assisted airless spraying and curtain coating
COLORS
Clear

Merit 30

A two-component acid-catalyzed lacquer.

- Superior filling properties
- MED certified
- Enhances the appearance of stained wood

RECOMMENDED USES
Furniture, doors and other similar wooden surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
Clear

Merit 80

A two-component acid-catalyzed lacquer.

- Superior filling properties
- Enhances the appearance of stained wood

RECOMMENDED USES
Furniture, doors and other similar wooden surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
Clear

Merit Sanding

A one-component acid-catalyzed lacquer.

- Fast-drying lacquer
- Provides UV protection
- One-component, easy-to-use sealer

RECOMMENDED USES
Furniture, doors and other similar wooden surfaces indoors
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
Clear

Merit Topas 10

A two-component acid-catalyzed lacquer.

- Good filling properties
- Fast-drying lacquer
- Aromatic solvent free

RECOMMENDED USES
Furniture, doors and other wooden surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
Clear

Merit Topas 25

A two-component acid-catalyzed lacquer.

- Good filling properties
- Fast-drying lacquer
- Aromatic solvent free

RECOMMENDED USES
Furniture, doors and other wooden surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
Clear

Merit Zircon Extra 25

A one-component acid-catalyzed lacquer.

- One-component
- For sealing and topcoating

RECOMMENDED USES
Priming and top lacquering of furniture, doors and other wooden surfaces in general
APPLICATION
Airless spraying, air-assisted airless and conventional spraying, as well as curtain coating
COLORS
Clear

Acid-catalyzed products

Primers and paints / Interior

Dicco Astral 35

A two-component acid-catalyzed paint.

- Good hiding power
- Thousands of colors
- Fast-drying topcoat

RECOMMENDED USES
Furniture, doors and other wooden and fiber board surfaces, for fast production lines
APPLICATION
Airless spraying, air-assisted airless and conventional spraying as well as curtain coating
COLORS
White and NSC S 0502-Y, and others Colors from RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards, Temaspeed Premium tinting system

Dicco Crystal 30 White

A two-component acid-catalyzed paint.

- Whiter than white
- Designed for automatic lines
- Excellent hiding power

RECOMMENDED USES
Furniture, doors and other wooden and mdf surfaces, for fast production lines
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
White

Dicco Crystal 90

A two-component acid-catalyzed paint.

- High gloss easily with one layer
- Excellent color retention
- For different kinds of spraying methods

RECOMMENDED USES
Furniture, doors and other wooden and mdf surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards, Temaspeed Premium tinting system

Dicco Crystal DS 25

A two-component acid-catalyzed paint.

- Excellent color retention
- Designed for automatic lines
- Excellent hiding power

RECOMMENDED USES
Furniture, doors and other wooden and mdf surfaces.
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
White 0201 and NSC S 0502-Y, RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards, Temaspeed Premium tinting system

Dicco Crystal FF 35

A two-component acid-catalyzed, formaldehyde-free topcoat.

- Non-smelling
- Non-yellowing topcoat with thousands of colors
- Excellent levelling properties with very high wear resistance

RECOMMENDED USES
furniture, doors and other wooden and mdf surfaces
APPLICATION
Application: airless, air-assisted airless and conventional spraying
COLORS
RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards. Temaspeed Premium tinting

Diccoplast 30

A two-component semi-matt and glossy acid-catalyzed top paint.

- High quality durable topcoat
- Good scratch and chemical resistance

RECOMMENDED USES
Furniture, doors, kitchen cabinets, panels, moldings and other wooden and fiber board surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying as well as curtain coating
COLORS
White 0201 and NSC S 0502-Y, RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards, Temaspeed Premium tinting system

Diccoplast 30 TIX

A two-component acid-catalyzed topcoat.

- Thixotropic paint
- Excellent hiding power
- Superior scratch and chemical resistance

RECOMMENDED USES
Furniture, doors and other wooden and fiber board surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
Colors from RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards, Temaspeed Premium tinting system

Diccoplast Plus TIX

A two-component acid-catalyzed primer.

- Thixotropic primer
- Excellent filling properties
- Aromatic solvent free

RECOMMENDED USES
Furniture, doors and other interior wooden and fiber board surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
White

Diccoplast Primer

A two-component acid-catalyzed primer.

- Excellent filling properties
- Easy to sand
- Also under water-borne topcoats

RECOMMENDED USES
Furniture, doors and other similar wooden and fiber board surfaces
APPLICATION
Airless spraying, air-assisted airless and conventional spraying, as well as curtain coating
COLORS
White 0201 and black 0202

Dicco Primer FF

A two-component, acid-catalyzed, formaldehyde-free primer.

- Non-smelling
- Easy-to-sand
- Overcoatable with conventional water-borne and water-borne UV-topcoats

RECOMMENDED USES
furniture, doors and other wooden and fibre board surfaces indoors
APPLICATION
airless, air-assisted airless and conventional spraying
COLORS
white

Acid-catalyzed products

Primers and paints / Exterior

Diccoplast Elastic Primer

A two-component acid-catalyzed primer.

- Forms an elastic film
- Good resistance to humidity
- For exterior and interior use

RECOMMENDED USES
Exterior windows and doors
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
White 0201

Dicco Flex 30

A two-component acid-catalyzed topcoat.

- High durability
- Thixotropic paint
- Good hiding power

RECOMMENDED USES
Wooden window frames and front doors
APPLICATION
Airless spraying, air-assisted airless and conventional spraying
COLORS
The colors from RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards, Temaspeed Premium tinting system

Polyurethane products

Lacquers / Interior and exterior

Merit Jahti 20

A one-component urethane-alkyd lacquer.

- All-round lacquer
- MED certified
- Excellent chemical resistance

RECOMMENDED USES
Boats, floors, doors, windows and other wooden surfaces both indoors and outdoors
APPLICATION
Airless spraying, air-assisted airless and conventional spraying as well as brushing
COLORS
Clear

Merit Jahti 80

A one-component urethane-alkyd lacquer.

- All-round lacquer
- Excellent chemical resistance
- One-component, easy-to-use lacquer

RECOMMENDED USES
Boats, floors, doors, windows and other wooden surfaces both indoors and outdoors
APPLICATION
Air-assisted airless and conventional spraying as well as brushing
COLORS
Clear

Polyurethane products

Primers / Interior and exterior

Diccodur Primer

A two-component polyurethane primer to fulfill high durability demands.

- Protects the surface from knot bleeding and yellowing
- Reduces swelling of wood
- Can be overcoated both with water and solvent-borne products

Pinjadur 30

A two-component, water-borne polyurethane topcoat.

- Outstanding gloss and color retention in climatic stress
- Easy-to-clean and non-chalking topcoat
- Improves resistance against resin and knot bleeding

Pinjadur Primer

A two-component water-borne polyurethane primer.

- Very low water permeability
- Ensures adhesion of topcoats
- Upgrades the performance of painting systems

RECOMMENDED USES
Exterior wooden windows, doors and exterior quality wooden and fiber board surfaces as well as interior furniture, chairs, doors and wooden and fiber board surfaces
APPLICATION
Airless, air-assisted airless and conventional spraying as well as curtain coating
COLORS
White

RECOMMENDED USES
fibre cement flat sheets and wooden surfaces in exterior premises
APPLICATION
air-assisted airless and conventional spraying
COLORS
RAL, NCS, SSG, BS, MONICOLOR NOVA and SYMPHONY color cards. Tamaspeed Fonte tinting

RECOMMENDED USES
exterior wooden windows, doors and exterior quality wooden and fibre board surfaces, interior furniture, chairs, doors and wooden and fibre board surfaces
APPLICATION
Application: airless, air-assisted airless and conventional spraying
COLORS
white

Other solvent-borne products

Stains / Interior

Dicco Color

A solvent-borne stain.

- Very fast-drying stain
- Reduces swelling of wood
- Wide range of colors

RECOMMENDED USES
Furniture, doors and other wooden and wood board surfaces indoors
APPLICATION
Conventional spraying, roller coating and dipping
COLORS
Dicco Color color card and several colors upon a request, Dicco Color tinting system

Dicco Lasyr

A solvent-borne semi-transparent stain.

- Semi-transparent stain
- Wide range of pastel colors
- Fast-drying stain

RECOMMENDED USES
Furniture, doors of kitchen fittings, panels, frames and other wooden surfaces indoors
APPLICATION
Conventional spraying and dipping
COLORS
The colors from the interior lacquer and semitransparent wood finishes color card, Temaspeed Premium tinting

Other solvent-borne products
